Louden] on Amazon.com. *FREE* shipping on qualifying offers. Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain highlighting/notes Wed, 05 Dec 2018 15:34:00 GMT Compiler Construction: Principles and Practice: Kenneth C ... - GoTo (goto, GOTO, GO TO or other case combinations, depending on the programming language) is a statement found in many computer programming languages. It performs a one-way transfer of control to another line of code; in contrast a function call normally returns control. The jumped-to locations are usually identified using labels, though some languages use line numbers. Goto - Wikipedia - An LR parser scans and parses the input text in one forward

pass over the text. The parser builds up the parse tree incrementally, bottom up, and left to right, without guessing or backtracking. At every point in this pass, the parser has accumulated a list of subtrees or phrases of the input text that have been already parsed. LR parser - Wikipedia -
